EXECUTIVE SUMMARY:

Don Bosco Anbu Illam is a catalyst organization which works to create lasting changes in the lives of children and communities that are living in periphery of the society. It serves for the holistic development of all of the children which ensure education, health, protection, participation and their communities regardless of religion, caste, race, ethnicity or gender. Our innovative interventions for the rehabilitation of street and working children have brought enormous changes and it has reduced the number of street children from 430 to just 65 in the Salem Corporation City. Child right grievances cells have been formed in 3 Government Higher Secondary Schools of our target area to ensure child rights. During the public election a memorandum was prepared and given to all the contestant and insisted to bring positive changes in the policies which are pertaining to the children. As the result the state government has appointed more teachers in the schools to give quality education and it has increased the budget for integrated child protection schemes in the state. District level resource team has been formed to promote child rights and prevent child rights violation. Nearly eight slums were declared as child labor free area by the National Child Labor Project of the Government and 3 slums were declared by the education department as 100% school enrolment of children who are below fourteen years. Almost 356 members of the trade union have taken an oath not to send their children for work. To affirm it further Don Bosco Anbu Illam also withdrawn its supplementary education centers from these slums.

To ensure long term sustainability community based organizations such as children parliament, youth groups, human rights forum for the young, federation of women groups for social justice and unorganized laborers unions have been formed and strengthened to support vulnerable families' within their communities. We have assisted the impoverished communities to increase their resources in order to allow families to stay together and care for their own children. When parents are missing, a child is typically cared for by relatives and extended family, which maintains the family ties. If families are not available, society looks to what is traditionally done for children without families and support is offered for the growing demands for traditional care. Although formal foster care may not be a culturally (due to the strong impact of the caste factors) recognized form of care, within some cultural systems, children spontaneously, informally or formally, find their way in to family units. Maintaining and protecting the family is how we allow children to thrive. In this way we are trying to move towards integrating the institutionalized children in to their families and communities. In short we are convinced that family care can help restore a lost childhood and achieve the sense of well-being every child deserves.

To protect and to promote child rights Don Bosco Anbu Illam has taken enormous efforts to established an effective network at district level and with government departments such as

Juvenile Justice Board (JJB), Child Welfare Committee (CWC), Social Welfare Department, District Child Protection Office (DCPO), CHILDLINE -1098 and other likeminded NGO's that cater to the needs and wellbeing of the children who are in need of care and protection. This year 62 child marriages and 12 illegal adoptions were prevented and for the first time in Tamilnadu a sexual abuse case has been filed under the Prevention of Children from Sexual Abuse Act 2012 (POCSO).

DBAI from its inception has made several remarkable interventions in the life of children who are in need of care and protection and people who are vulnerable and most neglected in the society. DBAI has yet much more to contribute towards their wellbeing in the future. In order to reach out many more children and youth and for their rehabilitation we have to encourage more committed volunteers both in local and in abroad and strengthen our network. We thank CORDAID the Netherland home heartedly for the great support and guidance without which all our efforts would have been only an unrealized dream.

Quantitative Report for September '12 to August' 13

Final Project report of Sep -12 to Aug-13

RESULTS: Goal: A Child Friendly environment where children are secure protected and developed to their full potential. Objectives: 1: Education and Development of Children: To ensure that children at risk are protected and achieved education and development standards.

Parameter	Project Target Sep-11 to Aug 13	First year Target Sep-11 to Aug-12	First year Achievement (September-12 to August-13)	Target for 2 nd Year (September-12 to August-13)	Achievement for 2 nd Year (September-12 to August-13)	Reasons For Variance
Outcome 1- Street /run away children 1,500 run away children will have been normally developing / in the process of rehabilitation (with the help of CWC) as per following breakup: 1,200 at their homes after repatriation, 100 at DBAI Shelter, 150 Children at other NGOs and 50 Children through CWC. Output - : 1,500 Children will have been rescued by CRPC, through Child line, Caring community groups, volunteers, anti beggars' drive and general public.						
Street Contact/Repatriation/Short Stay/Education for Shelter Children						
No. of children rescued through street contact centers, Child line, Caring community groups, volunteers etc.	1500	750	670 (580 Boys +90 Girls)	920	860 (780-Boys+80 Girls)	More Children were rescued by Caring Community Members of Bus stand, Railway junction and Police Departments.
No. of children rescued from sexually, mentally and physically abuses.	60	30	24	30	142	More caring community group members came forward & took

								initiatives as volunteersto victims children. • Children were rescued from the hazard situation and case studies had been prepared by child line, child rights protection center staff and child welfare committee.
No. of girl children rescued and prevent from child marriage	50	25	22	28	62	62	62	62 Child marriages stopped with support of Child Line, District Administration and Police Department.
No. of cases rescued through drives. (Beggars' Drive)	60	30	48	30	38	38	38	Two beggars' drives were organized by Child line in collaboration with district administration, District Child Protection office and Child Welfare Committee.
No. of children provided medical help	50	25	22	28	32	32	32	More needy children were provided medical assistance.
No. of children for whom home contact known.	1500	750	580	920	860	860	(780-Boys+80 Girls)	Staffs had taken extra effort to visit the family and contact homes of the children.
No. of missing children data received	30	15	10	20	12	12	12	Received data from the FIR copy of the police department.
No. of children identified through the website.	10	05	02	08	03	03	03	To get more information we need to get involved with other monitoring systems of the government departments.
Output: 150 children in the short stay home and shelter home will have been retained (no drop outs / run away) and regularly attending the programs.								
Providing quality Shelter : Food, Clothes, Toiletries/ Water/Sanitation, and other healthy recreation facilities provided.	150	75	148	75	139	139	139	The rescued children were placed by CWC for Short stay. And food, accommodation, water, sanitation, cloths,

No. of children studying technical studies.	30	15	22	10	22	healthy recreations were provided to the children. More opportunities and facilities were provided for the students to import skills and knowledge.
No. of CWC & Observation Home children benefited through life motivation skills.	60	30	35	25	48	Staff had organized many workshops and trainings for the CWC and observation home children.
Output- 4: 1200 children will have been repatriated to their homes.						
No. of children repatriated.	1200	600	550	650	700 Boys & 80 Girls	With the help of volunteers and well-wishers girls were referred to other NGOs and fit institution for the rehabilitation.
No. of children received regular or periodical follow up.	300	150	185	150	220	Staffs have done regular follow up by visiting the NGOs and fit institutions where girls were being referred for the rehabilitation.
No. of girl children referred to other NGOs .	300	150	187	113	80	The level of awareness had been increased and rate of runaway girls are reduced.
Slums Interventions/Identification & Rehabilitation of Child Labors/ Supplementary Education for Slum Children/ Drop Out Center/ Vocational Training/ Monitoring Government Schools to Prevent Drop Outs.						
Outcome 2:1300 children (400 school drop outs / 100 working children / 800 potential drop outs) leave working / child labor and continue their education. All 1300 children qualify their exams in both years.						
No. of children studying supplementary centers.	800	400	378	211	358	Regular awareness program had been organized on the importance of education and right to education (RTE) Act in the target area. As a consequence the dropout rate had been reduced.

No. of children continuing their education.	400	200	582	100	456	Due to regular follow up many children admitted in the school and continue their education.
Output: 175 trained children (age group 16 – 18) who are placed in jobs will be continuing their jobs.						
No. of students attending in vocational trainings.	175	80	136	80	98	More students attended and equipped developed necessary vocational skills.
No. of students completed the vocational trainings.	175	80	136	80	88	After the completion of the training students had appeared for the government exam got the government certificate and placed in different companies for jobs.
No. of students completed the summer camp (Computer) course.	100	50	52	50	58	More students benefited from this summer camp and equipped their skills and knowledge.
Output Put: 500 drop out and child laborers will have been withdrawn from work and admitted to Schools.						
Output: 800 potential drop outs will continue their children in schools.						
Output: At least 120 children will complete high school. Output: At least 80% attendance in the classes ensured.						
No. of children withdrawn from work and put in to school.	100	50	26	74	48	48 child laborers were identified and reenrolled in the schools with the support of government departments.
No. of Children reenrolled in Schools through School Enrollment Campaign	100	50	05	95	46	45 children were identified children with the support SSA personnel.
No. of children received educational materials.	300	150	110	190	240	Staff had mobilized resources from local well-wishers and more children benefited.
No. of children from slum area attend the 10 th and 12 final exams.	200	100	78	122	136	Encouragement and motivation were given by the staff and more children had attended their final exam.
No. of children passed their school examination. 10 th and 12 in Slums Areas.	250	125	335	100	112	Students motivated and better follow up done through the supplementary education

of Children Parliaments actively involved essing the issues on child rights violations.	30	15	28	15	29	Members from 29 Children Parliaments have been actively involved and addressed child rights violation issues.
f children parliament leaders in CCGs.	50	25	20	30	42	42 children Parliament leaders were trained to participate in the caring community groups' activities.
f youth involved in Caring community s.	50	25	12	38	25	25 members involved in caring community groups' activities because others have to work for their livelihood.
alumni unit members involved as eers members.	150	75	64	75	82	More members of our alumni unit have become volunteers.
support group members involved in community groups.	300	150	122	178	186	Porters -16, Auto driver -46, Trans Genders- 03, Call taxi drivers -10 Parcel group -20, Venders -22& Municipal Corporation Staffs-71.
ID cards distributed for caring unity members.	300	150	185	115	205	205 caring community group members have received ID cards.
unorganized trade union members.	300	150	310	50	46	356 people have registered to be the members the trade union because of the efforts taken by our staff.
king						
Children Parliament Net work, Campaign against Child labors/ District Child Protection Society/ City Advisory Board& District on Committee						
Issues raised by Network of NGOs.	30	15	15	15	12	Issues such as bonded labour, harassment in schools, lack of toilet facilities in government schools, right to quality education, and consequences of micro credit schemes were raised by NGOs network.

No. of issues solved by NGOs	20	10	2	13	8	Issues such as drop out from schools, strengthening school monitoring committees, harassment in schools, RTE act and micro credit systems were solved and other major issues were taken to the knowledge of the district administration for the immediate action.
Outcome 4: Networks of NGOs (10 NGOs) and network of CBOs (50 CBOs with 1200 members) raise and solve the issues related to child rights violation / protection.						
Output:- At least 15 government departments and local governance provide cooperation and support on the issues of child rights (Labor office, Social welfare, Social defense, Police, Local Government Bodies, Judicial, Health, Education department, Transport, Integrated Child Protection Scheme (SMILE), Telephone, Civil Supplies, District Administration, Railway and Differently able).						
No. of government departments supported on the child rights issues.	15	10	8	7	10	Government departments such as (police, education, health, judicial, railway, differently able, labor, social welfare and social defense) are supporting to protect and promoting the child rights.
Output:- At least 15 government departments provide assurance of sustained cooperation.						
No. of Government departments making commitments at the end of the programs.	15	10	8	7	10	Departments such as (police, education, health, judicial, railway, differently able, labor, social welfare and social defense) are committed to work on child rights issues.
Outcome 5: 4 Existing (old) Caring Community Groups (CCGs) and 4 Newly formed CCGs (Porters, auto drivers, Scavengers, transport staff, vendors, shop owners, Corporation staff, Police, Railway Police) act as child rights volunteers.						
No. of Caring Community Groups performing actions such as:						
Identifying children on the street, Reaching them safely to shelter homes, Intervening in cases of abuse, Financial help to solve issues etc.						
Output-1: All 8 CCGs are aware of child rights and are effectively functioning.						
No. of Caring community groups functioning	8	4	4	4	5	Due to periodical trainings 5 Caring

effectively and Work to Ensure Child Rights.								community group members handled child rights issues in the target area.
Output-2: Member of all 8 CCGs remain motivated and continue to support.								
No. of Caring community groups expressing commitment to support.	8	4	4	4	4	5		Members of caring community groups such as Scavengers and Auto Drivers have always extent their collaboration and support for our work.
Activities:								
Outcome: 1 Street /run away children, 1500 run away children will have been normally developing / in the process of rehabilitation (with the help of CWC) as per following breakup: 1200 at their homes after repatriation, 100 at DBAI Shelter, 150 Children at other NGOs, 50 children through CWC.								
Output: 1500 children will have been rescued by CRPC, through child line, caring community groups, volunteers, anti-beggars drive and general public.								
No. of contacts centers established.	4	4	4	3	1	2		Two centers have already existing and requested one more center from the district administration.
No. of beggar's drives organized.	4	2	2	2	1	2		Beggar's drives organized with the support of police department.
No. of meetings for Peer leaders to increase the number of peer leaders (old students).	4	2	2	3	2	3		Three meetings were organized two for past pupils and another one for girls at the vocational training center.
No. of orientation program for CCG group members to join in fund raising.	2	1	1	1	1	1		From this year onwards we appointed one staff for fund raising program, and every year we organized fund raising program for Caring community members.
No. of caring community meetings organized.	48	24	24	24	24	24		Alternative month and in emergency meeting will be organized for the members of the caring community groups.
No. of Networking meeting with the police department.	24	12	12	12	12	12		Every month we had regular networking meeting with police & CCGs members.

Output: The 150 children in the short stay home and shelter will have been retained (no drop outs / run away) and regularly attending the programs.									
No. of Motivation trainings organized on Education.	4	2	2	2	2	2	2	2	Two training program organized on the importance of the education.
No. of meetings organized for NGO's to refer the children.	2	1	1	1	1	2	2	2	More meetings were organized for the NGOs representatives who are working for the wellbeing of the children who are in need of care and protection.
No. of trainings organized on Vocational training.	2	2	5	3	2	2	2	2	Vocational trainings such as computer and tailoring have been organized for the students.
No. of trainings organized on health and hygiene.	4	2	1	3	2	2	2	2	Awareness created for the members of children parliament on health and self-hygiene.
No. of Exposure programs organized for youth and Children	8	4	5	3	4	4	4	4	More exposure programme organized with the support of local volunteers.
No. of Cultural Programs organized.	8	4	6	2	4	4	4	4	4- Cultural events were organized to create awareness and to exhibit their innate talents.
Outcome: 1300 children (400 school drop outs / 100 working children / 800 potential drop outs) leave working / child labor and continue their education. All 1300 children qualify their exams in both years.									
No. of meetings organized for stakeholders to organize survey.	2	1	2	-	1	1	1	1	1- Training was organized for the stakeholders.
Output: 175 trained children (age group 16 - 18) who are placed in jobs will be continuing their jobs.									
No. of vocational trades provided for youth.	4	2	2	2	2	2	2	2	1. Tailoring for girls. 2. Computer education for the drop outs, semi and unskilled youth.
Output Put: 500 drop out and child laborers will have been withdrawn from work and admitted to Schools.									
Survey and identification of new cases.	2	1	2	2	1	2	2	1	We had Survey on the status of the working children.

Output: 800 potential drop outs will continue their children in schools.							
No. of NFE centers organized.	8	4	6	2	6	6	6 NFE centers were organized with the support of the local volunteers.
No. of Supplementary centers for potential drop out school going children.	8	4	6	2	6	6	With the support local volunteers we organized 6 Supplementary centers.
No. of Continuing Education Center for drop out students.	1	1	1	1	1	1	One center organized in the premises of the organization.
Output: At least 70 % children are developing normally with all the inputs, as assessed in medical camps and report no medical / psychological trauma / problem (improved additional skills and leadership qualities)							
Providing additional developmental inputs to 1300 children: Holiday /summer camp, Exposures, Trainings, Medical camp, Recreation, Career guidance.							
No. of days Summer camp organized in Children homes and Slums.	30	15	15	15	15	15	15 Days of summer camp was organized in the month of May.
No. of exposures organized for Slums children.	4	2	2	2	2	2	Twice a year one day of exposure organized for the children at reach out area.
No. of Trainings organized for Slums children.	6	3	3	3	3	3	Periodical trainings organized for Children on multi skills.
Follow up with schools – visits to schools and training on Child Rights, Right to Information, family and school level participation, functioning of School Management committees							
No. of schools followed regularly.	8	4	4	4	4	6	Child friendly ambient have been created in 6 - Neighboring schools.
No. of Trainings organized RTI, RTE, and Child Rights.	4	2	3	1	3	3	3 Trainings were organized on Right to Information Act (RTI), Right to Education (RTE) and Child Rights for the staff.
No. of PTA meetings organized.	8	4	4	4	4	4	4 – Meetings were organized for the PTAs.
Outcome : 35 infected children and 80 affected children and their parents will live a normal life in the society							
Output:- All 115 children and their parents are in regular contact and are participating in all the programs (at least 80 % attendance).							

No. of Visits made for to take ART.	48	24	24	24	12	12	Twice of Every month the children have taken to Government hospital to take ART medicine.
No. of linkage with hospital for medical assistance.	2	2	3	1	3		1. Government hospital. 2. St. Mary's Hospital. 3. Sri Chellappa Hospital.
<u>NGO / CBO – GO Networking and Advocacy</u>							
Objective: To ensure that NGOs and CBOs do advocacy with the Government on child rights and network with various Government departments and offices for child protection in the District.							
Outcome: Networks of NGOs (10 NGOs) and network of CBOs (50 CBOs with 1200 members) raise and solve the issues related to Child rights violation / protection.							
Output:- At least 15 Government departments and local governance provide cooperation and support on the issues of child rights (Labor office, Social welfare, Social defense, Police, Local Government Bodies, Judicial, Health, Education department, Transport, Integrated Child Protection Scheme (SMILE), Telephone, Civil supplies, District Administration, Railway and Differently able)							
No. of meetings organized to form the new groups.	12	6	6	6	6	3	Only three meetings had been organized because more concentration given for the existing groups.
Regular meetings with existing networks of NGOs and CBO groups.	8	4	4	4	4	8	Regular meetings have been organized to strengthen the net work with NGOs and Government departments.
Training to CBO groups.	8	4	4	10	2	6	More training was organized for the CBOs members to take the lead in addressing issues that are related to the children and their welfare.
Training to NGO networks.	4	2	2	2	2	2	1. Training for State level NGOs on Child Rights 2. Training for District level NGOs on Child Protection
No. of programs organized on social audit of	4	2	2	--	2	2	2 programs organized on Social Audit for

government (schools etc.).									Schools.
Outcome 5: 4 - Existing (old) Caring Community Groups (CCGs) and 4 Newly formed CCGs (Porters, auto drivers, Scavengers, transport staff, vendors, shop owners, Corporation staff, Police, Railway Police) act as child rights volunteers. No. of Caring Community Groups performing actions such as: Identifying children on the street, Reaching them safely to shelter homes, Intervening in cases of abuse, Financial help to solve issues etc.									
Output:- All 8 CCGs are aware of child rights and are effectively functioning.									
No. of meetings organized for the formation of 4 new CCGs.	32	16	16	16	16	16	8		Only 8-meetings were Organized for New CCGs (Porters, Transport Staffs, Vendors and Shop owners) because we had concentrated on the existing groups.
Meetings with 4 old CCGs.	32	16	16	16	16	16	16		16 -Regular meetings were organized for Auto drivers, Scavengers, Corporation Staff and Police personnel.
No. of meetings organized to interface of 4 old and 4 new CCGs.	8	4	4	4	4	4	6		More meetings were organized to create rapport between the new and old CCGs.
No. of Training program on personality development, leadership quality for youth groups.	8	4	4	6	2	4			Periodical trainings were organized for the youth to impart necessary skills.
Training on IGP, Entrepreneurship, Right to information, Domestic violence Act and women rights to the women groups.	8	4	4	6	2	3			Effort to be taken to organize more training for women group members.
No of Staffs trainings organized	8	4	3	5	6				More trainings were organized on attitude and behavioral changes, counseling, resource mobilization RTE act, JJ act & child rights.
No of Staffs Exposure organized	2	1	1	1	2				Two Exposure programme were organized in collaboration with other Don Bosco Network.

NARRATIVE REPORT

Learning from Successes

About Result (Outcomes and outputs)

1. Results planned and achieved fully:

Rescue:

Don Bosco Anbu Illam – Salem has rescued around 860 run away children from home and found doing odd jobs in bus stands, railway stations, cinema theaters, markets, tea stalls, hotels, and in hazardous workshops in the past one year in Salem with the help of CHILDLINE - 1098 and other NGO's that work for children at risk. Among them at least 142 have suffered physical, psychological or sexual abuses. Most importantly we have rescued almost 42 girls from child-marriages. CHILDLINE – 1098 and child rights protection center which is placed at the new bus station have been an instrumental to get an instant notice about the abuses meted out to children. It has been acknowledged all over Tamilnadu as one of the unique initiatives towards the welfare of the children, especially the marginalized. We are trying to ensure the continuation of this work, by encouraging more volunteers to join hands in our work for the protection of children.

Moreover in view of preventing children from running-away from homes and to have a better follow up of the runaway children we have formed and trained the vigilance groups in many villages. This was done in collaboration with the local government. The rising issue of the increasing count of children introduced into begging in and around the city has become another challenge for us. We work on it by continuing our 'beggars' drives' which attempts to rehabilitate these children and this is done in collaboration with the consent department of the district administration. This profession has been adapted by the respective families as their means to livelihood. Often these are from other states that are left with nothing but begging. Hence the government is quite uncertain about the means to eradicate begging in Salem. On our part, every year we rescue many children but we are yet to arrive at a permanent solution by net working with other organizations and the government departments.

Rehabilitation:

Among the rescued children the total number of girl children was 80 (eighty). They were sent to respective institutes for rehabilitation. Another (80) children were shifted to the care of child welfare committee (CWC) for the appropriate enquiry and rehabilitation. The remaining (700) children found their way back home with our assistance. Mostly these runaway children are stranded due to the non-cooperation of their parents and relatives. Such a state is due their misconception that the children may lead them into legal issues. This makes our work even more

challenging. Eighteen such children were sent permanently to juvenile homes in the last one year.

Education:

Evening Classes:

After enrolling the children in the formal schools we follow them up in the evening with a supplementary education. Among the twenty eight slums in the Salem Corporation City we only cater to the most disserving six slums through our supplementary education center and three hundred and fifty eight (358) children have benefitted from these centers. In those places around 456 four hundred fifty six children who have been initiated into schooling continue hitherto. Besides education these evening class centers help the children to develop their aptitude, group development, leadership, self- confidence, decision making skills. Educational exposures, summer camps have been organized to enhance their skill further.

Dropout Prevention Centre:

We run a dropout prevention centre that caters to those who have discontinued their schooling in Salem Corporation City to acquire the basic education and to pass the government exams like VIII STD, SSLC and HSC. Last year minimum of 62 and 6 students have cleared their SSLC and HSC exams respectively. Another 68 and 8 students have begun their special coaching in SSLC and HSC. Apart from the regular training they are offered career guidance and counseling to develop their aptitude skills. Quite unlike other such centers, we maintain a student friendly atmosphere in our class rooms. As one of its remarkable achievements around 76 have applied for their university studies.

Technical Education:

In our working areas we have different vocational training units such as basic computer course for both boys and girls and tailoring and needle works only for girls who have dropped out from the school. The courses were programmed for a year. Around 98 students had enrolled and were frequented for regular classes. 88 students were completed their vocational skill trainings. Among this 8 students attended the government exams and successfully completed and went for the government higher grade exams. During summer vacation (April and May) we had extended these trainings to the school going children. This helps the children to equip their skills and potentials. 58 school going children benefitted through this training during the summer vacation.

Work for those Infected with HIV:

Another milestone in our work for the young at risk is our work for those infected and affected by HIV and AIDS. Our work has received appreciation and support from the local government. 53 infected children are looked after and they are provided quality education, medical assistance and they enjoy nutritious meals. They get ART medicines every month from

the government hospital. Doctor makes a visit every month for the general checkup and to keep the track of the medical profile of the children. Hence with the efficient assistance of the staff of the government hospital and with the better monitoring system of the organization children are motivated to keep themselves active, hygiene and healthy. Among them five are doing their diploma in technical education and other 48 children go for their regular schooling in the neighboring government school. It is great challenge to get them educated, fully motivated and reintegrate into society.

Shelter Homes:

The most deserving street and working Children, who have no contact at all with their parents, stay in DBAI shelter home. DBAI - Salem has two institutes for destitute children with in the geographical area of the Corporation City. Nearly 139 runaway children, those who lost their way, abandoned or vagabonds without any idea of their native places or relatives, prisoners' children, orphan and semi orphan are provided shelter and other necessary amenities. Except nine students who pursue their technical education in different institutes, the rest are enrolled and frequent nearby schools for education. Children who are orphaned we encourage kinship care while others who have nowhere to go are remain with us throughout the year. Besides they also receive special care and affection from our staff and volunteers.

NGO/CBO – GO Networking and Advocacy:

Caring Community Groups:

a. Children's Parliaments:

Children's Parliament is a forum by the children to discern, discuss, and voice their wellbeing to the higher ups. Hitherto we have 29 (twenty nine) Children's Parliaments in the places of our field work. These parliaments are used as instruments to spread awareness about the rights of children and issues related any such denials of rights. They address not only issues of direct interest to children but also communities. Besides these children are instrumental in helping us identify the drop outs in their schools, areas and assist us in our efforts to create awareness in their respective localities. Every month the children gather for their meetings discuss the issues and report to the district officials. One of our boys named Aravind, has been elected as the state level vice president in the Children Parliament Association. Apart from these we have created Eco-Clubs to create eco-sensitivity in schools and to help children grow in a pro-environment culture. This has contributed a lot in our efforts to save energy, save trees and save earth.

b. Youth Groups:

The young men's groups were started in our working area in line with fans club, but with a different motive of social integration. Initially they were not that cooperative for our programme and meetings. After many meetings and orientation programme they became very

supportive and helped to implement our activities. They even mobilized resources to implement some of our programme. At present we have twelve youth groups for boys and ten for girls. These groups are train to cultivate among themselves a culture of discipline, self-confidence, value based living, to raise their voice for justice and fight for their fundamental rights. These groups were motivated to transform other rising young generation to be the catalyst in the society. In our efforts we have succeeded for certain extent in bringing them together to fight against caste based discrimination and atrocities done by the police in their localities. Besides this they have also volunteered to render education aids to deserving children.

c. Women's SHG:

We have twenty five SHG's for women. We regularly assist them in their efforts especially by rendering legal aids and other necessary counseling whenever they required. These groups have their bank accounts received loans and have benefitted from their efforts to pool their energy together for a brighter future. Besides this it has become a force against every anti-social element in the society. They raise their voice to promote human rights, justice, peace and fight for fundamental rights of every citizen. Gradually this work is facing a great threat due to the micro credit schemes which lure them with big amount of loans which they are unable to pay back and at the end they become dependent and remain as debtors. It has become inevitable to work for these people to create awareness about the viciousness of these micro credit firms and to convince them not to borrow money from them. At least in two areas the women have promised not to borrow money from them. We are however working with other groups to arrive at such resolutions.

d. Unorganized Workers Welfare Association:

Most of the parents of our children are doing menial jobs for daily wages. They have neither job security nor other privileges form the government. To ensure these we have organized them into an Unorganized Workers Welfare Association under the patronage of "Mother Theresa". It has 356 members hitherto, among which 205 have received their identity cards and 35 members have received education help for their children form the government. The association aims at making the government officials treat equally all the workers despite the type of works designated for them. At present, we are making efforts to form them as cluster and then district level federation to ensure more involvement and participation to create just and equal society.

Net Working:

DBAI, Salem regularly organizes a District Level Children's Parliament Meeting joining hands with ten other NGO's in and around Salem. This has stood as great support in our work to identify any violation of rights of children in the district and to effectively bring them to the notice of the higher authorities in our district. For example this forum has brought the plight of the begging children to the notice of the district administration. As a result, we organized

beggar's drive twice a year which helped us rescue at least thirty eight children. Further, we organized a district level Child Rights Meeting to bring awareness about their rights. As a consequence today the district level education department has joined hands with us to implement the Right to Education Act (RTE) in every school in the district. Moreover we work in unison with district judicial system and police department to protect the rights of the children and their well being in our areas. Thus, we were able to legally punish the offenders. The government has a record of eighteen such cases we have registered against the perpetrators of child rights in the last one year.

Don BoscoVazhikatti:

DBAI incollaboration with Don BosscoVazhikaattiCareer Guidance and Job Placement Centerhad organized many programme such as career counseling, communication skill training, interview technics and job fair for the youth to improve their life situation. Through this network we have trained the skilled and unskilled youth of our target area and created job opportunities. We have placed nearly 75 youth in private and government sector for various jobs for the very decent salary which helped them to gain positive self-profile and improve their life situation in the society.

District Child Welfare Committee and Reception Home:

In accordance with the Juvenile Justice Act (JJ Act) 2006 the TamilnaduState Government has approved DBAI – Salem to function as a reception home for boys for Salem District. Moreover we have been certified as a 'fit institution' to care of the boys who are in need of care and protection. The Child Welfare Committee (CWC) of the district is also functions in our premises to deal with issues relating to the violation of child rights and to take legal action. Thus our institute is privileged to ensure the rights of the children by addressing legal issues with the help CWC which consists of five members bench whose chair person is our Project Coordinator. This has helped us to become more effective in our work for poor and abandoned children.

Child Line:

CHILDLINE-1098 is one of the largest help line and 24 – hours emergency outreach service for children in need of care and protection in India. Based on the partnership model, CHILDLINE INDIA FOUNDATION (CIF) was established to reach out to marginalized children in need of care and protection. To achieve the goal of CIF and to offer its priceless services to the children in distress it was extended to Salem district in Tamilnadu in the year 2002. Salem Child line had travelled far and wide across the district to advocate its objectives and its services to the children who are in difficult circumstances so that any child/public can ring up 1098 and avail its services for their wellbeing across the district. With committed staff of CHILDLINE the rehabilitation activities were carried for fast 12 years for the wellbeing of the children who are in need of care and protection.

Conclusion:

Though we have accomplished the above mentioned tasks for the welfare of the poor and abandoned children in our surrounding, DBAI has yet much more to contribute towards their well being in the future. To further strengthen the networks, the involvement of locals, and encourage the participation of the volunteers in our works we have plans for the coming years. We thank you for supporting us in our efforts to continue our work for the poor and abandoned youth.

Lessons learnt:

- We hope to build the capacities and methodologies to have a full-scale right based approach through the Juvenile Justice desk and the Human rights forum.
- Generating of more Volunteers would surely lead the Community towards Child friendly Society.
- It is not enough that we try to bring a change in the mental attitude of the children in the Schools and Children homes but also need to attitude change child friendly.
- Children should make to participate in, contribute to and enjoy civil, economic, social and political development through Children Parliaments.
- Now our staff member is became the Chairman of the child welfare committee, so we are able to bring about the alternate care as a reality in the lives of so many boys who were locked up in the government homes. Also Sponsors and Volunteers can be motivated to become the Alternative care for the abandoned children.
- We have to strengthening the existing three monitoring panels to ensure open, transparent, effective, efficient and responsive systems in Salem district. (City advisory board, Anti trafficking committee and District level watch dog committee.)

5.	Caring community groups	2	-	-	2	4	1	-	-	4	5
6.	Un organized Trade Union		1			1		1			1
	Total	2	15	16	41	74	6	13	16	43	78

Grading for Present Last One year:

Children Parliament:

This year 3 - groups have been newly formed and total groups were 29. At present 2 groups in Norming Stage and 2 groups moved from Norming stage to storming stage, because they had attended the meeting regularly. 2 - Groups moved from Storming stage to performing stage due to the group's leaders were organized regular meetings in their areas. 17 - Groups in performing stage and these groups are maintaining the same stage.

This Year:

- ✓ Children Parliament (Child Rights Club) formed in Government schools
- ✓ Inclusive children parliament formed at district level.
- ✓ Our children parliament member Master. Aravind elected as a Deputy Prime Minister at State Level.
- ✓ Special attention given for differently able children.
- ✓ Disseminated the child rights issues to District Administration through the District level convention.

- ✓ Cultural Team Formed and they were arranged cultural events in their areas.

Achievement:

- Children parliament given information immediately to Child Line when they got information about Child Marriage, Drop out and abuse cases.
- Children Parliament gets back the educational fee from the school management.

Major Challenges

- Parents are not realized about their children issues
- Less knowledge of environment issues
- Child Marriage issue is main issue in Salem District.
- Less knowledge of Laws related to child issues

Women groups

Women groups are taking an active part in the activities of People's federation. It is they who are in front to fight for the rights of the society. They lead by their example and thus we have many women taking part in the people federation.

Status of Women Groups in the year 2012-2013

The women are able to group themselves to form a federation due to the past experience that they have in forming the self-help groups. They are able to understand the concept of federation easily. Thus the number of women participation in the federation is high and very powerful.

Savings of Women Groups: 15, 20,000/-

Since they have Self-help groups the saving mentality is much higher compared to the other groups in the society. They are able to save lot of money and thus they are able to stand on their own. They don't depend on others for their economic security. They are able to start trades on their own and are able to get income from that. They are also able to send their children to the school.

At present the existing women groups are 21 and this phase we have started 4 new groups at Sannyasigundu, Pachapatti, and Kitchipalayam. Totally there are 25 groups. Five groups were moved to norming stage. Because each group has started bank account and their savings was Rs. 3000. At present 4 groups were in storming stage because they enrolled themselves as members in trade union. 12 Groups were still maintaining their performing stage. The 25 Group members received Government Schemes.

Major Challenges:

- Very poor healthy
- Less knowledge of Acts and Welfare schemes

Young Men Groups:

The youth are the backbone of a country. They have so much potential that they can achieve what they want. But in our operational areas it was not the case. Since they were Dalits they were treated as slaves by the other caste people. They were not able to come out and achieve anything. But now due to our presence they are able to come out of their slavish mentality and at present they are fighting for their social rights. They have joined the People's Federation and they are able to identify the problems of their society and find solution to solve the various social issues.

Status of the Young Men Groups in the Year: - 2012-2013

We have 12 young men groups and in which 3 groups are in norming stage. One group is in storming stage. Rest of 5 groups is moved from storming stage to performing stage because the members have acquired necessary skills and going for jobs. They have organized many programmes and other 3 groups are maintaining same performing stage because they have handled number of human rights violation issues in collaboration with Citizen's forum for Human Rights Movement

Young Women Groups:

We have 10 young women groups in our slums. 2 groups are in norming stage and 4 groups are in storming stage. Still 4 groups are in performing stage because they have attended the trainings on gender and short term skill training and with the support of young women groups 8 young girls had employment.

Major Challenges:

It is difficult to make them to perform in groups as they are very submissive to traditional practices of the male dominated society. Also when they completed 18 year age they will get married immediately and moved to another place of their husband family.

Caring Community Groups (Support groups):

We were newly formed 1 Caring community groups in Street contact areas At Present 4 groups were in performing stage because they involved in identify the runaway children and helping them to financially for go back to home.

Major Challenges:

- ✓ Lack knowledge of on Child Rights
- ✓ Lack knowledge of on Juvenile justice act-2006

Don Bosco Anbu Illam-Salem

Caring community groups (Trade Union):

There are 310 members in the unorganized trade union and 185 members have received ID card from the government and motivated them to get other welfare schemes of the government. We have planned to organize on the basis of sector like scavengers union, civil workers union, cobblers union etc.

Action Plan:

- ✓ Government welfare schemes will be obtain for the members of trade union.
- ✓ Different unions like cobbler union, scavengers union etc will be organized.
- ✓ General body meeting will be organized.

ONE YEAR EVENT REPORT (2012-2013)

DROPOUT CENTER

BACKGROUND AND OBJECTIVE

Educational training for School dropout students is one of the activities of Don Bosco Anbu Illam. The students who failed in their 8th 10th and 12th std exams are recruited and given special training to finish their exams. The students recruited are from a very poor background and from broken families.

DATE AND DURATION: Sep-2012 to Aug-2013

PARTICIPANTS & FACILITATOR

To train the student's one teacher is appointed to handle the major subjects and brothers are also asked to handle the language for the students.

METHODOLOGY

At first stage we identify the students who are dropped out from the school during their 8th, 10th and 12th std classes. We recruit them give special coaching to face their final exams in comfort. We also give them sessions on Social Awareness, Life coping skills, goal setting etc to prepare them not only to face the exam but also to face the challenger in their life. Extra-curricular activities like dance, music, folk arts and competitions are also conducted to develop their innate talents.

PROCESS AND OUTCOME:

No. of Students who appeared in September 2012.

Appeared - 58

Passed - 52

No. of Students who appeared in March 2013

Appeared - 56

Passed - 22

No. of Students who appeared in June 2013.

Appeared - 18

Passed - 08

No. of Students studying in September- 2013 -52

- ❖ Among 82 Passed students 10 of them already got married.
- ❖ 5 Students appeared for the 8th std exam
- ❖ 5 students appeared for the 12^h std exam
- ❖ 72 students appeared for the 10th std Exams

Passed achievement:

- ➡ 10 students are continuing their higher education in government ITI at Korimedu.
- ➡ 4 students are doing their Diploma in Engineering at Kongu poly technique at Mallur.
- ➡ 5-students are doing their under graduation at Sri sakthi kailash and Kongunadu arts and science at Salem.

IMPORTANT EVENTS FOR DROPOUT STUDENTS:

S. No	Date	Events	Conducted By	No of Students
1	15.09.2012	Parents meeting	Fr.Amal	60
2	26.09.2012	Flok arts training	Bala	15
3	08.10.2012	How to face the exam	Fr.Amal	45
4	26.10.2012	Farewell Day	Fr. Amal & Bala	45
5	23.02.2013	Parents Meeting	Fr. Amal	80

7	09.03.2013	Picnic to mettur	Fr. Amal & Bala	40
8	27.01.2013	Youth Mela	Fr.Selva Kumar	08

CONCLUSIONS AND DECISIONS

Our main concern is to empower the dropout students by providing quality education to equip them with employable skill to acquire suitable job and to live with self dignity in the society.

Event Report-2

**Salem District Level Parliament Network
Training and Skills Development Program**

Background and objectives:

The children parliament convention was organized to create training and Skills Development to all Children. In this program has been contacted in an effort to ensure that case managed individuals, whose employment action plan identifies skill development as being necessary, have access to funding to assist them in achieving their goal. Development of these programmes at district level, Particularly in the area concerning common polices, common standard and procedure and training of instructor are the responsibility of children parliament leader and members.

Date & Time:

The Children Parliament Convention was organized on 18.05.2013 at 10.00 am (Saturday)

In K.V Mahal ,(Harur Main Road, Ayopthiyapatinam).

PARTICIPANTS & FACILITATOR:

The convention began with a prayer song and The chief guest of the program Rtn. S. Dhanraj(Business man). There were around 320 Children from various Organizations. NGOs Staff & Religious also participated in the Convention. The number of participation list as follows,

- Don Bosco Anbu Illam,Salem
- Vikashini, Nochipatty
- POLE, Neikarapatti.

Event Introduction	-	Mr. A. Doss
Wishes	-	Mr. A.P.Nayagam
Snake Show	-	Mr. Lara
Magic Show	-	Mr. Mohan Raj
Drama	-	NET
Street Play	-	Don Bosco
Folk Dance	-	Vikashini
Kollatam	-	Cluny
Debate speech	-	Salem People Trust
Vote for Thanks	-	Cluny.

COMMENTS AND FEED BACK:

The convention was organized efficiently. The participation of the children from various organizations was very good. Good food and accommodation was given to the children. The input sessions were very helpful.

CONCLUSION AND DECISION MAKING:

At the end of the convention the Children were skill development convinced of their employment and committed to establish better knowledge.

Case Study:1

"Efforts Makes Successor"

A girl by name Karthiga belongs to a village Gandhimagan Street situated in Salem. She has one elder Sister and one elder brother and younger brother; her elder brother is doing a job silver making factory. Her father was no more and mother is headed the family. So the girl didn't complete the 6th standard. This is the reasons for the girl to go for the domestic work.

One day the girl met Our Staff Mrs. Thamarai who was a social worker in Anbu Illam and she explained about the advantages of drop out center. So the girl was enrolled in study center. In this center she got many opportunities such as training on skill development, folk arts, personality development and training on how to face the examination. So the girl improved her good attitude and self confidence. It has leaded the girl to pass 8th and 10th public examination.

After the completion of her examination she learned the tailoring skills and handicraft such as toys making and jewels making through Anbu Illam. It has helped her family for reducing the poverty.

Now the girl has started her life with fulfillment of their economic conditions. She told, "Now I understand who is interested in my welfare- I am the role model for others in my community;
